

Construction Advisory

The Miami-Dade Water and Sewer Department continues its upgrades to the wastewater sewer system at the intersection of Biscayne Boulevard and NE 183rd Street. Beginning August 15, 2021, construction will take place nightly at that location. Northbound & southbound traffic will remain open, but drivers can expect some periodic lane closures in both directions along Biscayne Boulevard.

**Hours of Nighttime Construction:
August 15, 2021 - August 27, 2021
9:00 p.m. - 6:00 a.m.**

The contractor will take all the necessary steps to minimize impacts and to keep traffic flowing in both directions.

Final road restoration (milling and resurfacing) will take place at the end of the project.

If you have any questions, please contact the Public Involvement & Outreach representative, Bernardo Favole at (305) 542-4000.
